The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles or $4

BEWARE OF IMPOSITION.

"SWAIM'S—PANACEA—PHILAD'A."

and having the name Jas. Swaim, stamped on the sealing wax, and written on the label covering the cork; and a splendid engraving for the side of the bottle, composed of a geometric lathe work, comprising nine different dies, which have been turned for the exclusive use of the Proprietor, by Draper & Co., bank note engravers, of Philadelphia. In the centre is a portrait of the late Wm. Swaim, copy right secured

AMERICAN AND FOREIGN OFFICE.
AGENCY FOR BUSINESS WITH THE U. S. PATENT OFFICE WASHINGTON,
NO. 76 STATE, OPPOSITE KILBY ST., BOSTON.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for patents, superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments, and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringements of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, (generally about 30 per cent. less than those of others in the profession) but avail themselves of the experience of 20 years practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents.

Copies of claims of any patent furnished by remitting *one* dollar. Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents

During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston did business at the Patent Office, as Solicitor of Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE,
Late Commissioner of Patents."

The Daily News.

NEWPORT,

BY CRANSTON & NORMAN

144 THAMES STREET.

TUESDAY MORNING, OCT., 2, 1855

☞ A report has been in circulation that the Aquidneck House was closed for the season: such is not the case. It will remain open during the winter, and those stopping in the city will find an excellent home there, and recieve the best attention from Mr. Rider and his clerk, Mr. Taber.

☞ P. W. Engs, Esq., is the Democratic candidate for Comptroller of the city of New York. It looks strange, indeed, to see his name on a Democratic ticket.

AQUIDNECK FAIR.

Report of the list of Premiums awarded by the Aquidneck Agricultural Society to exhibitors at the late exhibition.

In publishing this report the society would say that it is a cause of regret that (in consequence of necessary expenses and limited means) they were obliged to restrict their premiums to the amount shown by the bill, but while we regret this short coming, we must congratulate ourselves that we have been able, by liberal donations, to increase them annually, and hope so to increase them that by a continued liberality on the part of donors and economy in the expenditures, that we may make it eventually an object for not only the residents of this Island, but for farmers and mechanics from all parts of the county (if not the state) to be competitors for the same.

The Committee on fat cattle respectfully report, to Wm. Bailey 1st premium $5 00.
Charles & John Gould 2d " 3,00

The Committee on working oxen respectfully report the first premium of $5,00 to Leonard Brown, of Portsmouth.

The second premium of $3 00 to Truman B. Congdon, of Middletown.

They would further report that the whole number entered for competition was 10 yoke, the majority of which in the opinion of the Committee are well worthy of notice, but as there are but two premiums on working oxen, the Committee find themselves limited to that number. The Committee would recommend that the Society hereafter offer more liberal and numerous premiums on working oxen, considering the interest manifested and competition for the same.

Also a nice Leicester Ewe with 3 lambs at a birth by her side, by Wm. G. Taggart, gratuity of $1.00 allowed.

The Committee in submitting their report would say the different breeds (though not a very large collection) were superior specimens.

BY TELEGRAPH.

Baltimore, Sept. 29.

☞ The yellow fever is still abating. though what few new cases there have been are of a very malignant character, which indicate a lack of material for the disease to feed upon.

At Norfolk there were seven deaths on Thursday, and three up to noon on Friday, but no new cases.

At Portsmouth there were twelve deaths on Wednesday, eight on Thursday, and 3 on Friday, and scarcely any new cases.

Dr. Jackson was ill. The wife of Rev. Mr. Armstrong is dead.

South Dennis, Mass., Sept. 29.

The schooner Marietta Burr, Capt. Nickerson, from Alexandria for Boston, put in here in distress with all hands sick of yellow fever. At one time there was not one man on board able to work the vessel.

YELLOW FEVER AT BARBADOES AND SURINAM.—The Demarara Gazette of the 9th ultimo states that the yellow fever had broken out with great virulence at the island of Barbadoes, at the Dutch colony of Surinam. The deaths there had reached the number of thirty a day. The Demarara Royal Gazette of the 7th instant states the fever was raging "with still greater virulence at Surinam." Demarara is reported to be unusually healthy.

SOLD.—"Bob, that is a fine horse you have there, what is he worth?"

"Three hundred and fifty dollars."

"No, not so much as that!"

Yes, every cent of it and another fifty on top of it."

"Are you sure?"

"Yes, I'll swear to it."

"All right."

"What are you so inquisitive for?"

"Merely for assessing purposes, I am the assessor for this ward and only wanted to know what you rated your nag at."

At Paterson, a day or two ago, a man was brought up before the Police Court and fined for selling brandy. The amount of the fine was twenty dollars and costs.—The Justice obligingly took the prisoner's note at thirty days; and let him off at that, very comfortably and pleasantly.

A JEWISH CONVERT.—The Rochester Democrat states that an American Protestant lady of that city, a few weeks since, entered the pale of Judaism, and last Sunday she was married according to the Jewish ritual, to a descendant of Abraham.

YELLOW FEVER.—The deaths by yellow fever at Vicksburg for the week were forty The deaths at Canton were 20.

Rachel was serenaded at her residence in New York on Friday night, and her brother appeared and promised the crowd that she would take the first opportunity to comply with their request by singing the *Marseillaise.*

If the girls would spend as much time with encyclopedias as they do with milliners, they would soon find their heads as attractive as their hats.

CHEERING.—It seems to be now pretty conclusively settled that a more abundant harvest was never reaped in this country than we are blest with the present season. Prices still are kept up by speculators, but they must ultimately come down; and nobody will mourn if the whole posse of speculators are crushed by the fall. We piously wish they may be.

A LITTLE TOO PUNCTUAL—A STEAMBOAT SKETCH.

The hour was approaching for the departure of the New Haven steamboat from her berth at New York, and the usual crowd of passengers, and friends of passengers, news boys, fruit venders, cabmen and dock loafers, were assembled in and about the boat. We were gazing at the motley group from the foot of the promenade deck stairs, when our attention was attracted by the singular actions of a tall, brown Yankee, in an immense wool hat, chocolate colored coat and pantaloons, and a fancy vest. He stood near the starboard paddlebox, and scrutanized sharply every female who came on board, every now and then consulting an enormous silver bull's eye watch, which he raised from the depth of a capacious fob, by means of a powerful steel chain. After mounting guard in this manner, he dashed furiously down the gang plank and up the wharf, re-appearing almost instantaneously, with a flushed face, expressing the most intense anxiety. This series of operations he performed several times, after which he rushed about the boat, wildly and hopelessly ejaculating:

"What's the time er day? Wonder if my repeater's fast? Whar's the cap'n?—whar's the mate? whar's the boss that owns the ship?"

"What's the matter, sir?" we ventured to ask him, when he stood still for a moment.

"Hain't seen nothin' of a gal in a blue shawl, (cost fifteen dollars,) pink gown, and brown boots, hey? come aboard while I was looking for the cap'n at the pint end of the ship—have ye? hey?"

"No such person has come aboard."

"Tormented lightnin'! she's my *wife!*" he screamed; "married her yesterday. All her trunks and mine are aboard, under a pile of baggage as tall as a Connecticut steeple. The darn'd black nigger says he can't haul it out, and I won't leave my baggage, any how. My wife—only think on it, was to have come aboard at half past four, and here it's most five. You don't think she's been abducted, do ye mister. Speak! answer wont ye! O! I'm ravin' distracted! What are they ringing that bell for?—Is the ship afire?"

"It is the signal for departure—the first bell. The second will be rung in four minutes?"

"Thunder! you don't say so? What's the cap'n?"

The Yankee darted to the captain's side.

"Cap'n, stop the ship for ten minutes, won't ye?"

"I can't do it, sir."

"But ye must, I tell you. I'l pay you for it. How much will you tax?"

"I could not do it."

"Cap'n, I'll give you tew dollars," grasped the Yankee.

The captain shook his head.

"I'll give ye five dollars and a half!—and a half!—and a half!—and and a half!" he kept repeating, dancing about in his agony, like a mad jackass on a hot iron plate.

"The boat starts at five *precisely*," said the captain shortly, and turned away.

"O, you stunny-hearted heathen!" murmured the Yankee, almost bursting into tears. "Partin' man and wife, and we just one day married."

At this moment the huge paddle wheels began to paw the water, and the walking beam descended heavily, shaking the huge fabric to her centre. All who were not going to New Haven went ashore. The hands began to haul in the gang plank; the fasts were already loose.

"*Let go that plank!*" roared the Yankee, collaring one of the hands. "*Drop it*, like a hot potato, or I'll heave you into the dock."

"Yo—yo!" shouted the men in chorus, as they heaved on the gangway.

"Shut up, you braying donkeys!" yelled the maddened Yankee, "or there'll be an ugly spot of work."

But the plank was got aboard, and the boat plashed past the pier.

In an instant the Yankee pulled his coat off, flung his hat beside it on the dock, and rushed wildly to the guard.

"Are you drunk or crazy?" cried a passenger, seizing him.

"I'm goin' to fling myself into the dock and swim ashore!" cried the Yankee. "I mustn't leave Sairy Ann alone in New York city. You may divide the baggage among ye. Let me go! I can swim."

He struggled so violently that the consequence might have been fatal, had not a sudden apparition changed his purpose. A very pretty young woman in a blue bonnet, white Canton crape shawl, pink dress, and brown boots, came towards him.

The big brown Yankee uttered one stentorian shout of "*Sairy Ann!*" clasped her in his arms in spite of her struggling, and kissed her heartily, right before all the passengers.

"Where *did* you come from?" he enquired.

"From the ladies' cabin," answered the bride. "You told me half past four, but I thought I'd make sure and come at four."

"A little *too punctual*," said the Yankee. "But it's all right now. Hallo, cap'n, you can *go ahead now.* I don't care about stopping. Come nigh gettin' drown'd, [illegible] ry all along of *you*—but its *all right* [illegible]. Go ahead, steamboat! *Rake up* there, firemen! durn the expense!"

When [illegible], the loving couple were seen seated on the upper deck, the big brown Yankee's arm encircling the slender waist of the young woman in the blue bonnet and pink dress. We believe they reached their destination safe and sound.

BROCK'S MONUMENT.—The new monument to the memory of the illustrious General Brock, on Queenstown Heights, is now raised to about one hundred and forty feet high, and the workmen are at present busy with the fine corinthian shaft. This with the crowning entablature of the column, will probably be completed this fall though the entire work will not be finished before next summer.—There will be but one column in the world superior in height to Brock's monument, and probably not one exceeding it in beauty and position. The ground in the vicinity is covered with massive pieces of work, stone statues of warriors, lions and elaborately carved works that are to adorn the cornice of the pedestal capital and entablature of the column. Among these stands a colossal statue of General Brock, seventeen feet in height, which will be placed on the top of all. The figures are of the same kind of stone which forms the monument, and are executed in a bold and flowing style that will give an aspect of much animation to the monument. They reflect much credit, indeed, upon the architect and workmen engaged. This magnificent column will be an ornament to the province, and a fitting testimonial of a people grateful to the memory of a most beloved governor and victorious defender of Upper Canada, and who gave his life for her security. In comparing the monument now constructing with the old one, we could almost thank the infamous Lett, for having been the occasion of so noble a work being erected on the battle ground of Queenstown.—[Niagara Mail.

A parson going to church slumped with his horse into a slough, where he was held fast, his head and shoulders sticking out of the mud.

"I see," said a neighbor, going by, "that you have attained your object: you are a *settled* minister!"

This healing Ointment far more readily penetrates through any bone or fleshy part of the living body, curing the most dangerous inward complaints, that cannot be reached by other means.

ERYSIPELAS, SALT RHEUM and SCORBUTIC HUMORS.

*No remedy has ever done so much for the cure of diseases of the Skin, whatever form they may assume as this Ointment. No case of Salt Rheum, Scurvy, Sore Heads, Scrofula, or Erysipelas, can long withstand its influence. The inventor has traveled over many parts of the globe, visiting the principal hospitals dispensing this Ointment giving advice as to its application and has thus been the means of restoring countless numbers to health.

SORE LEGS, SORE BREASTS, WOUNDS AND ULCERS.

*Some of the most scientific surgeons now rely solely on the use of this wonderful Ointment when having to cope with the worst cases of sores, wounds, ulcers glandular swellings, and tumors. Professor Holloway has by command of the Allied Governments, dispatched to the hospitals of the East large shipments of this Ointment, to be used under the direction of the Medical Staff, in the worst cases of wounds. It will cure any ulcer, glandular swelling, stiffness or contraction of the joints, even of 20 years, standing.

PILES AND FISTULAS.

These and other similar distressing complaints can be effectually cured if the Ointment be well rubbed in over the parts affected, and by otherwise following the printed directions around each pot.

Both the Ointment and Pills should be used in the following cases:

- Bunions
- Burns
- Chapped hands
- Chilblains
- Fistulas
- Gout
- Lumbago
- Mercurial Eruptions
- Piles
- Rheumatism
- Salt Rheum
- Skin Diseases
- Sore Legs
- Sore Breasts
- Sore Heads
- Sore Throats
- Sore of all kinds
- Sprains
- Scalds
- Swelled Glands
- Stiff Joints
- Ulcers
- Venereal Sores
- Wounds of all kinds

FISKE MEDICAL PRIZE QUESTION.

THE Trustees of the Fiske Fund, at the annual meeting of the Rhode Island Medical Society, held at Providence, June 6th, 1855, announced that the premium of fifty dollars offered by them in 1854, for the best dissertation bearing the motto—

Corn from the sheaves of science, with stubble from my own garner.

And upon breaking the seal of the accompanying packet, they learned that the successful competitor was Albert Newman, M. D., of Attleborough, Mass.

And that the premium of one hundred dollars offered by them, upon the 2d question, The effect of climate on Tuberculous Disease, had been awarded to the author of the dissertation bearing the mottoes—

"In longis morbis solum mutare."

"In the cure of almost every disease, the removal of the producing cause should be the primary object."

And upon breaking the seal of the accompanying packet, they learned that the successful competitor was Mr. Edwin Lee, member of the Royal College of Surgeons of London, &c. &c.

They propose the following subject for 1856: "What [illegible] accelerate or retard the development of Tubercles in the Lungs of persons predisposed to Disease."

For the best dissertation on this subject the Trustees will pay one hundred dollars.

Every competitor for premium is expected to conform to the following regulations, viz—

To forward to the Secretary of the Fiske Fund Trustees, on or before the first day of May, 1856, free of expense, a copy of his dissertation with a motto written thereupon, and also accompanying a sealed packet, having the same motto inscribed upon the outside, and his name and place of residence within.

Previously to receiving the premium awarded the author of the successful dissertation must transfer to the Trustees all his right, title and interest in and to the same, for the use, benefit and behoof of the Fiske Fund.

Letters accompanying the unsuccessful dissertation will be destroyed by the Trustees, unopened, and dissertations may be procured by their respective authors if application be made therefor within three months.

THE Burglar's Alarm and Physician's Night Bell and Lamp!—This instrument, patented August 21, 1855, is simple and certain in its operation, and gives security against the depredations of burglars. An attempt to open any door or window connected with this apparatus, will cause an alarm loud and long, to be rung, and a common hand lamp to be lighted at the same instant. The burglar, frightened at the alarm he has raised, will hastily abscond, even before an actual entrance is made

Physicians and Apothecaries will also find the article of great utility For such purposes, it is operated by a bell-pull at the street door, and will save the expense and convenience of a constantly burning light.

When compared with other instruments invented for the same purpose, this alarm is admitted to be vastly superior, both as to the efficiency of the alarm, and the certainty of ignition.

SOAP! SOAP!!

THE subscriber is now prepared to furnish the highly celebrated American Cream, American Laundry, American Manufacturers' Soap, and Cream Soap preparation. These soaps are presented to the public with the fullest confidence in their superiority and utility. A fair trial according to the directions given below, cannot fail to be entirely satisfactory; and an argument more conclusive than pages of certificates and recommendations. A fair trial is all I ask. These soaps do the work of the Laundry in the best manner in cold water, either hard or soft, or salt, dispensing entirely with boiling, pounding, washing machines, &c., without injury to the most delicate fabric. In cold weather, health may render it advisable to take the chill off the water.

The tendency of these soaps is to soften the clothes and loosen the hold of the dirt, without injury.

DIRECTIONS FOR USE.—White Clothes—Rub the soap freely on all soiled spots, make a strong suds in water, sufficient to cover, soak a few hours, or all night if convenient, when with a common hand rubbing and thorough rinsing, they will be perfectly clean and beautifully cleansed.

Calicoes and other colored articles, wash without soaking and rinse.

Woolens—Wash in warm suds (to prevent shrinking) and rinse.

Merinoes, Silk Velvets, Silks, Ribbons, &c. Wash in strong suds and rinse.

To take Lamp Oil, Wheel Grease, Grease Spots, &c. out of Carpets, Table Covers, and Clothing, rub the soap on freely, soak some time in strong suds, rub out and rinse. Ink spots and stains, use full strength, soak, and wash in hot water.

Gilding and Mahogany.—Wash in weak suds, rub with silk cloth and rinse. Paint, wash in strong suds.

For all other purposes, use as you do the common bar soap, and you will be compelled to admit that it surpasses all other soaps. Manufactured and for sale wholesale and retail by

Also, Fixtures for a new and valuable improvement in applying Insulators by which the glass is kept dry, causing no leaks in roofs of buildings, and effectually preventing the Electrical Fluid from being conducted by iron screws and drives into the seen

The following recommendations have been furnished gratuitously—

Louisville, Jan. 27, 1851.

The Lightning Conductors on the plan of J. Spratt, of Cincinnati, appear to be very well devised, and in point of mechanical construction, are the best I have ever seen.

It is to be hoped that the use of these rods may become general as an important auxiliary defence against a danger which must be regarded as of no ordinary magnitude, to which all buildings are liable.
B. SILLIMAN, Jr.
Prof. of Chem. in the Univ. of Louisville.

This will certify that I have examined the Lightning Rods, Metallic Points, and Insulating Attachments, manufactured by Mr. Spratt of Cincinnati, Ohio, and regard them as constructed in conformity to the general laws of the electric fluid; and the Gilded Copper Branched Points, as promising, from the results of several tests to which they were submitted, to resist for years the action of those atmospheric causes most likely to corrode them.
